

WHY THE BEE COZY?

Winter hive losses are reaching above the 50% range in many North American regions. Bee Cozy wraps have been used successfully during the long Canadian winters for over 25 years.

PROTECTIVE

Supports the bees through the cold winters & helps maintain ambient temperatures.

EFFICIENT

Save valuable time with our slip on, slip off method!

AFFORDABLE

With a long life expectancy, annual costs are minimal.

SUSTAINABLE

Built from environmentally friendly materials.

NOD APIARY PRODUCTS LTD.

Keeping Honey bees healthy is in everyone's best interest for the sake of our food and our future. We take our cues from nature to develop solutions for beekeepers that are effective, sustainable, and safe.

Treat your bees suffering from Varroa mites with our **MITE AWAY QUICK STRIPS® (MAQS)** or **FORMIC PRO™**

Bee Cozy
WINTER HIVE WRAPS

WHY INSULATE?

MAXIMIZE YOUR HONEY CROP BY WINTERIZING YOUR COLONIES.

HEALTHY, OVERWINTERED COLONIES PRODUCE UP TO 2X THE AMOUNT OF HONEY COMPARED TO OTHER COLONIES AND START OFF STRONGER IN THE SPRING.

DURING WINTER, BEES ROTATE FROM THE CENTER TO THE OUTER EDGE OF THE CLUSTER.

WRAPPING PROVIDES THE INSULATING LAYER BEES NEED TO REDUCE THE OVERALL RATE OF HEAT LOSS FROM THE HIVE WHILE ALSO SUPPLYING A WINDBREAK FOR BREEZY LOCATIONS.

SEAM IN FRONT PROVIDES "CHIMNEY" FOR BEES TO ACCESS FRESH AIR. TOP AND BOTTOM ENTRANCES ARE NEEDED TO PROVIDE SUFFICIENT VENTILATION.

1 CREATE A BOTTOM OPENING

PLACE A 2" NAIL ABOVE ENTRANCE REDUCER TO LIFT COZY UP, CREATING A BOTTOM ENTRANCE.

2 TIP COLONIES FORWARD

TIP COLONIES FORWARD SLIGHTLY WITH SHIMS TO ALLOW MOISTURE TO RUN AWAY FROM ENTRANCE.

3 ROLL AIR OUT OF WRAP

ROLL EXCESS AIR OUT OF COZY SO IT CAN SLIDE ON COLONY MORE EASILY AND HELPS PREVENT TEARS.

4 PLACE WRAP SEAM TO FRONT

KEEP SEAM TO THE FRONT OF THE COLONY, THIS CREATES A TUNNEL FOR THE BEES TO MOVE AROUND.

5 PLACE INNER COVER PAD

PLACE INNER COVER PAD INSIDE A DEEP INNER COVER. PAD CAN ALSO WORK WITH A SHALLOW SUPER.

6 UNWRAP AND STORE

COMPRESS AND SLIDE INTO BARREL BAGS. STORE BAGS IN A DRY LOCATION.
